Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies

Business of the Company

Chaffe Securities, Inc. (the Company) is registered as a broker/dealer with the Securities and Exchange Commission and is a member of the Financial Industry Regulatory Authority, specializing in merger and acquisition transactions and advisory services.

The Company is a wholly owned subsidiary of Chaffe & Associates, Inc. (the Parent). The Company was formed on October 13, 2009, pursuant to the general corporation laws of the state of Louisiana.

Revenue Recognition

Investment banking fees are recorded on the settlement date basis. Advisory fees are recognized at the time services are earned.

Receivables from Customers

Receivables are carried at original invoice amount. Management determines if an allowance for doubtful accounts is necessary by regularly evaluating individual customer receivables and considering a customer's financial condition, credit history, and current economic conditions. At December 31, 2017, there was no allowance for doubtful accounts.

Cash and Cash Equivalents

For purposes of the statements of cash flows, the Company considers all highly liquid investments purchased with a maturity of three months or less to be cash equivalents.

Income Taxes

Accounting principles generally accepted in the United States of America provide accounting and disclosure guidance about positions taken by an entity in its tax returns that might be uncertain. The Company believes that it has appropriate support for any tax positions taken, and management has determined that there are no uncertain tax positions that are material to the financial statements.

Penalties and interest assessed by income taxing authorities, if any, would be included in income tax expense.

CHAFFE SECURITIES, INC.

Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Recent Accounting Pronouncements

In May 2014, FASB issued Accounting Standards Update (ASU) 2014-09, *Revenue from Contracts with Customers*. FASB and the IASB have basically achieved convergence with these standards.

In August 2015, the FASB issued ASU 2015-14—*Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date*. The amendments in the Update defer the effective date of the new revenue standard (Update 2014-09) for public and nonpublic entities reporting under U.S GAAP by one year. Public business entities, certain not-for-profit entities, and certain employee benefit plans should apply the guidance in Update 2014-09 to annual reporting periods beginning after December 15, 2017, including interim reporting periods within the reporting period. Earlier application is permitted only as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within that reporting period. All other entities should apply the guidance in Update 2014-09 to annual reporting periods beginning after December 15, 2018, and interim reporting periods within annual reporting periods beginning after December 15, 2019. All other entities may apply the guidance in Update 2014-09 earlier as of an annual reporting period beginning after December 15, 2016, including interim reporting periods within that reporting period. The adoption of this guidance is not expected to have a material effect on the Company's financial statements. The Company will use the full retrospective application of the new standard. The Company's contracts are all started and completed in one annual reporting period and the Company has no remaining performance obligations to fulfill over the coming year.

In November 2015, the FASB issued Update 2015-17—*Income Taxes (Topic 740): Balance Sheet Classification of Deferred Taxes*. The amendments in this update require that deferred tax liabilities and assets be classified as non-current in a classified statement of financial position. The current requirement that deferred tax liabilities and assets of a tax-paying component of an entity be offset and presented as a single amount is not affected by the amendments in the update.

The amendments in the Update will align the presentation of deferred tax assets and liabilities to be classified as noncurrent in a classified statement of financial position.

For public business entities, the amendments in this Update are effective for financial statements issued for annual periods beginning after December 15, 2017, and interim periods within those annual periods.

CHAFFE SECURITIES, INC.

Notes to Financial Statements

For all other entities, the amendments in this Update are effective for financial statements issued for annual periods beginning after December 15, 2017, and interim periods within annual periods beginning after December 15, 2018.

Note 2. Related Party Transactions

The Company is managed by its Parent. The Company paid Chaffe & Associates, Inc. management fees totaling \$36,000 and overhead reimbursements totaling \$0 during the year ended December 31, 2017.

Note 3. Income Taxes

Components of income tax benefit for the year ended December 31, 2017, are as follows:

Current	\$ (11,064)
Deferred	<u>0</u>
	<u>\$ (11,064)</u>

The effective tax rate for the year ended December 31, 2017, was 15%. Income tax benefit differs from the amounts computed by applying the U.S. federal rate of 34% to income before income tax benefit principally due to the effect of graduated tax rates, state income taxes, and expenses which are not deductible for income tax purposes.

The Company is consolidated with its Parent for U.S. federal income tax return purposes, and files a Louisiana state income tax return. Returns filed in these jurisdictions for tax years ended on or after December 31, 2014, are subject to examination by the relevant taxing authorities. The Company is not currently under examination by any taxing authority.

As of December 31, 2017, the Company had no uncertain tax positions.

Note 4. Significant Customers

During the year ended December 31, 2017, the Company had one customer that accounted for 100% of total revenue. At December 31, 2017, there were no receivables due from this customer.

Note 5. Net Capital Requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At December 31, 2017, the Company had net capital of \$45,206, which was \$40,206 in excess of its required net capital of \$5,000. The Company had no Aggregate Indebtedness at December 31, 2017.

CHAFFE SECURITIES, INC.

Notes to Financial Statements

Note 6. Fair Value Measurements

Financial Accounting Standards Board Statement ASC 820, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Company has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in active markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Company has no investments as of December 31, 2017

The following chart shows the components of change in the assets categorized as Level 3 for the year ended December 31, 2017.

Balance, December 31, 2016	\$ 31,250
Total gains and (losses) (realized/unrealized)	\$ (31,250)
Included in earnings	
Purchases, issuances, and settlements	
Balance, December 31, 2017	\$ -

CHAFFE SECURITIES, INC.

Notes to Financial Statements

Note 7. Subsequent Events

FASB ASC Topic 855, *Subsequent Events*, establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. Specifically, it sets forth the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements, the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in its financial statements, and the disclosures that an entity should make about events or transactions that occurred after the balance sheet date.

In accordance with ASC 855, the Company evaluated subsequent events through February 19, 2018 the date these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.
